Step 2: Create an Assistant

Create Watson Assistant

The screenshot shows the IBM Watson Assistant web interface in a browser. The page title is 'Welcome to the new Watson Assistant'. A blue 'Next' button is in the top right. The main heading is 'Create your first assistant' with a speech bubble icon. Below it, a paragraph explains the steps: 'Let's get your assistant up and running. Name your assistant, add a description, and choose a language. In following steps we'll gather more information, show you basic customizations, and give you a preview of what your assistant will look like.'

The form contains three sections:

- Assistant name:** A text input field containing 'Banking Bot'. Below it, a note states: 'Your assistant name will be kept internally and not visible to your customers'.
- Description (optional):** A text area with a character count of '0/128'. The placeholder text is 'Add a description for this assistant'.
- Assistant language:** A dropdown menu showing 'English (US)'. Below it, a note states: 'This is the language your assistant will speak.'

The browser's address bar shows the URL: `us-south.assistant.watson.cloud.ibm.com/urn%3Aav1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F21ad8cc1c506442797a6fb71cb6f453d%3Ad96e3af8-0711-4824-89b7...`. The taskbar at the bottom shows the system clock as 04:18 PM on 11-11-2022.
