Project Name	AI based Discourse for Banking Industry

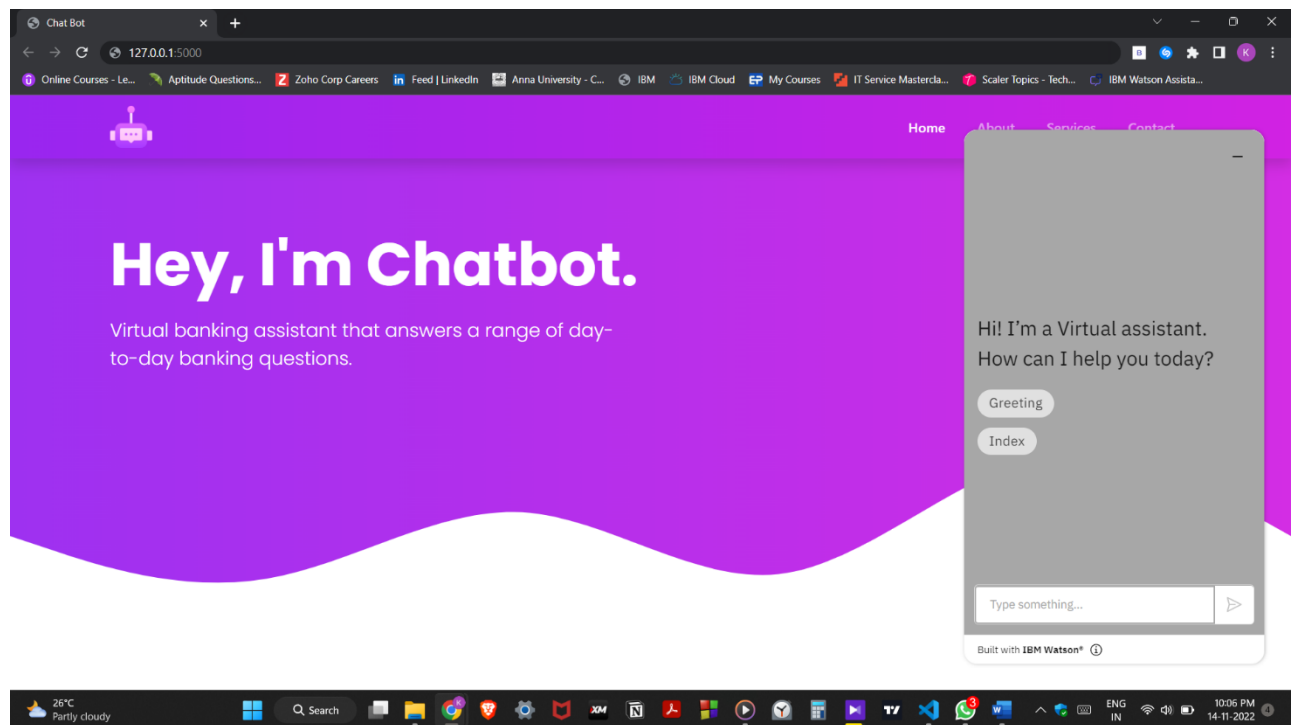

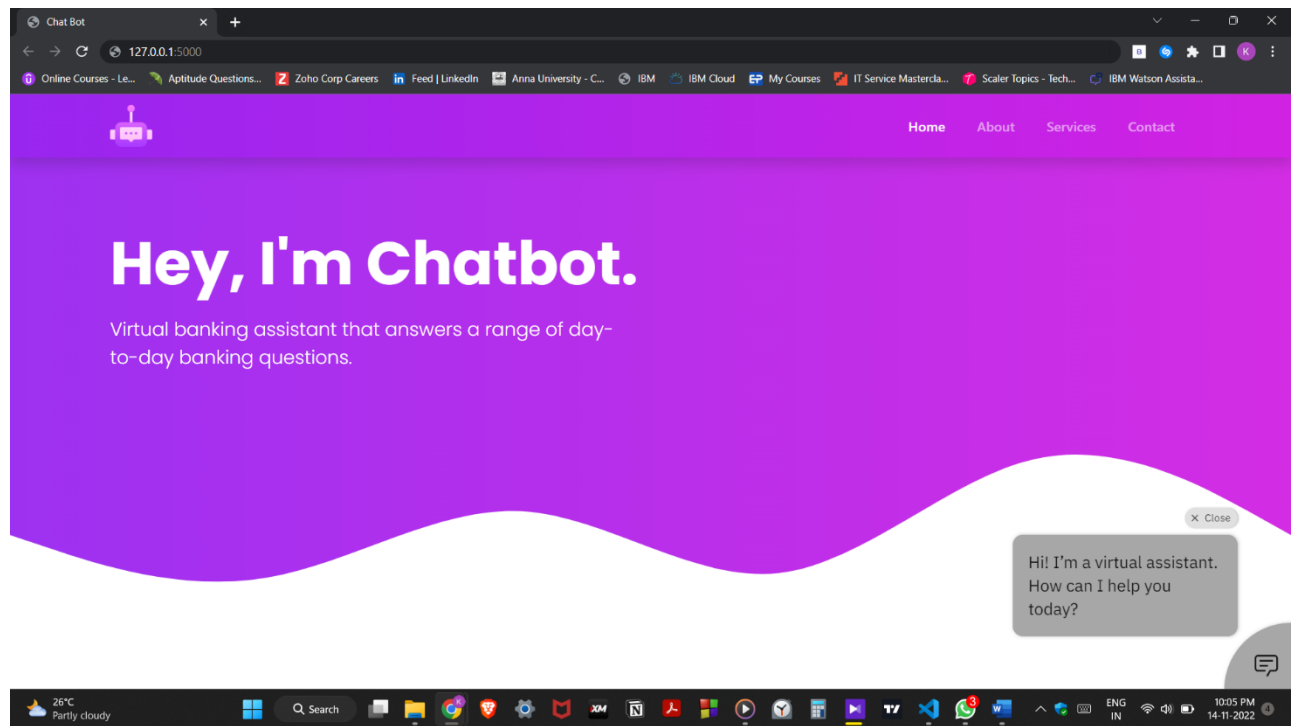

Run the Application:

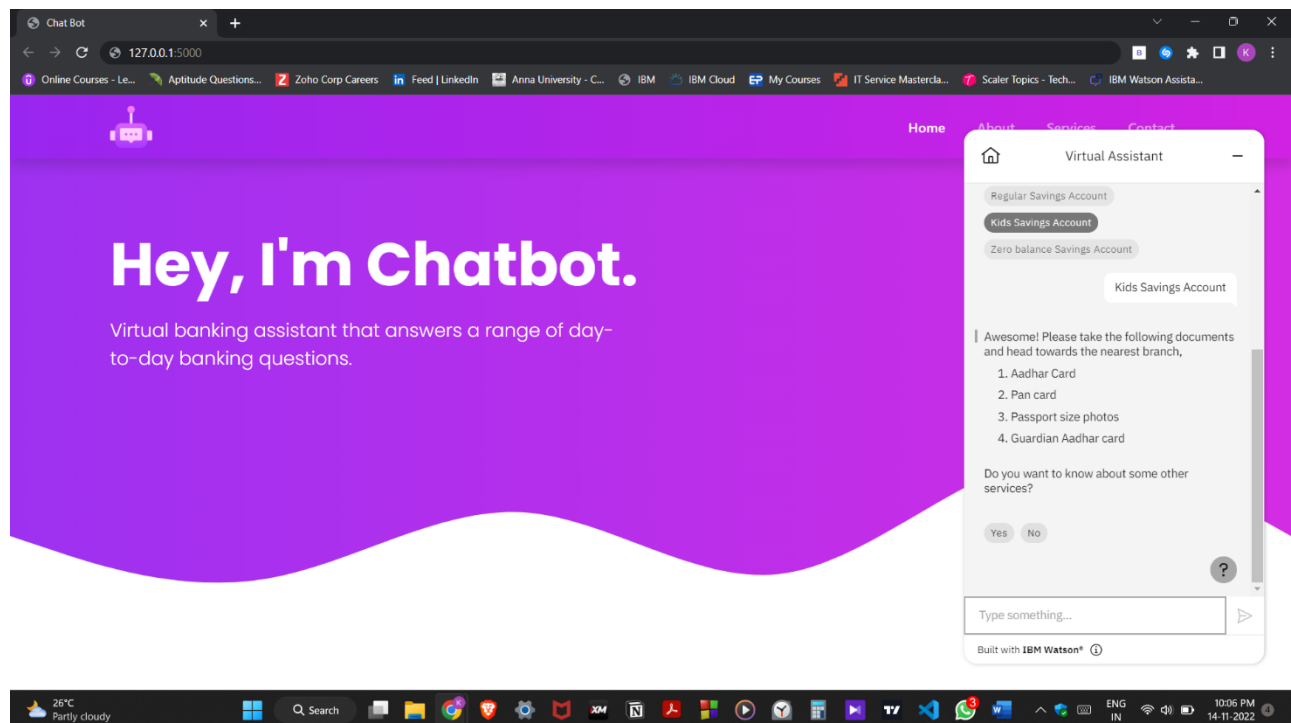

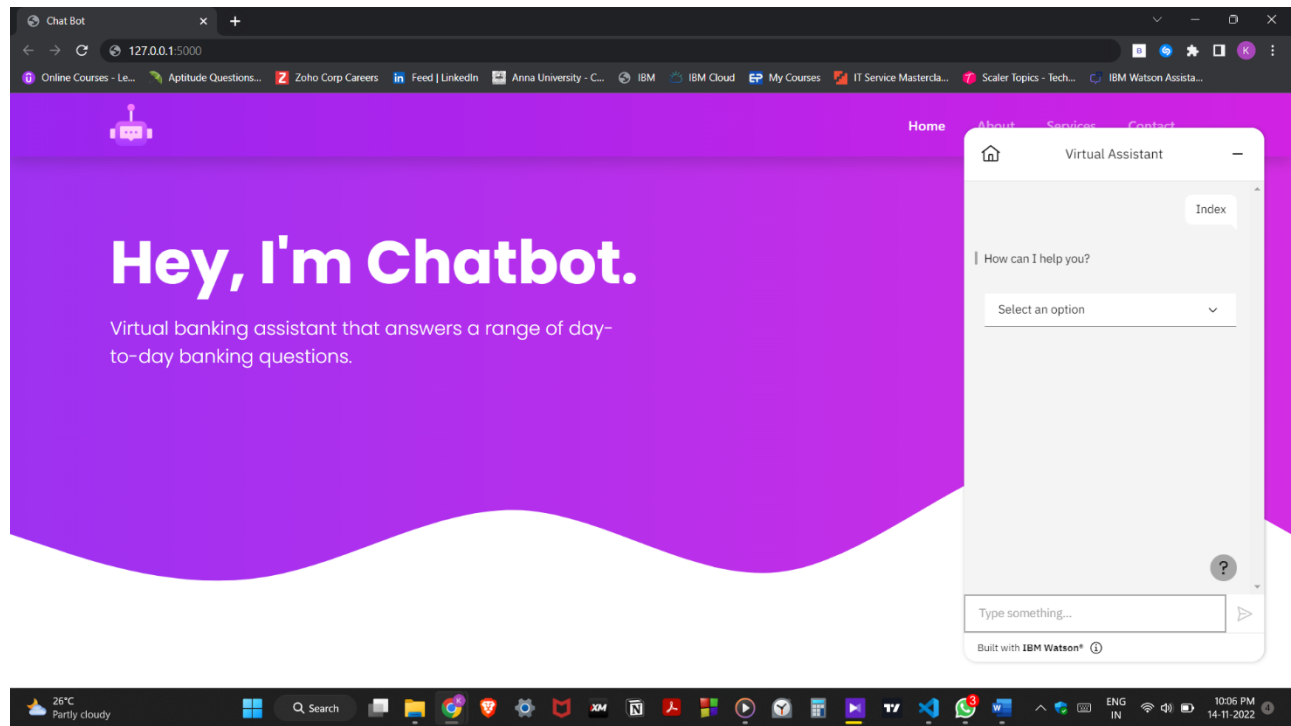

- Open the anaconda prompt from the start menu.
- Navigate to the folder where your app.py resides.
- Now type the “python app.py” command.
- It will show the local host where your app is running on http://127.0.0.1:5000/
- Copy that localhost URL and open that URL in the browser. It does navigate me to where you can view your web page.

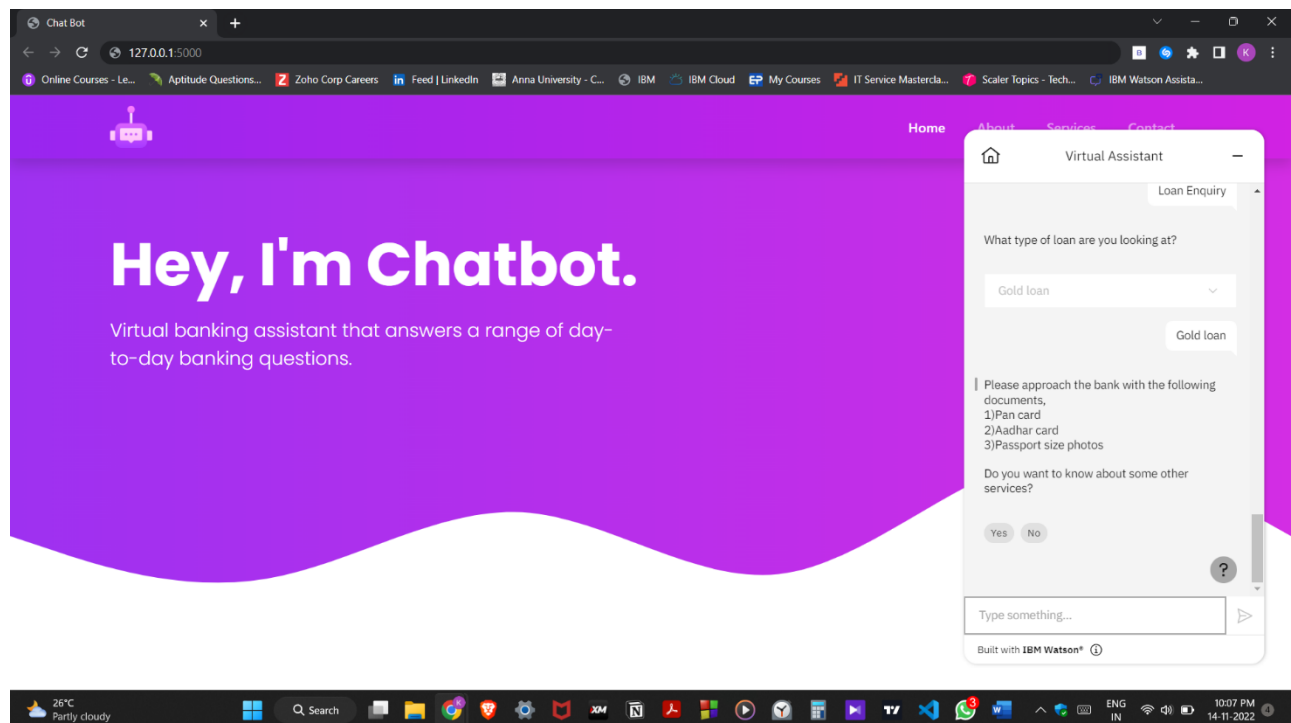

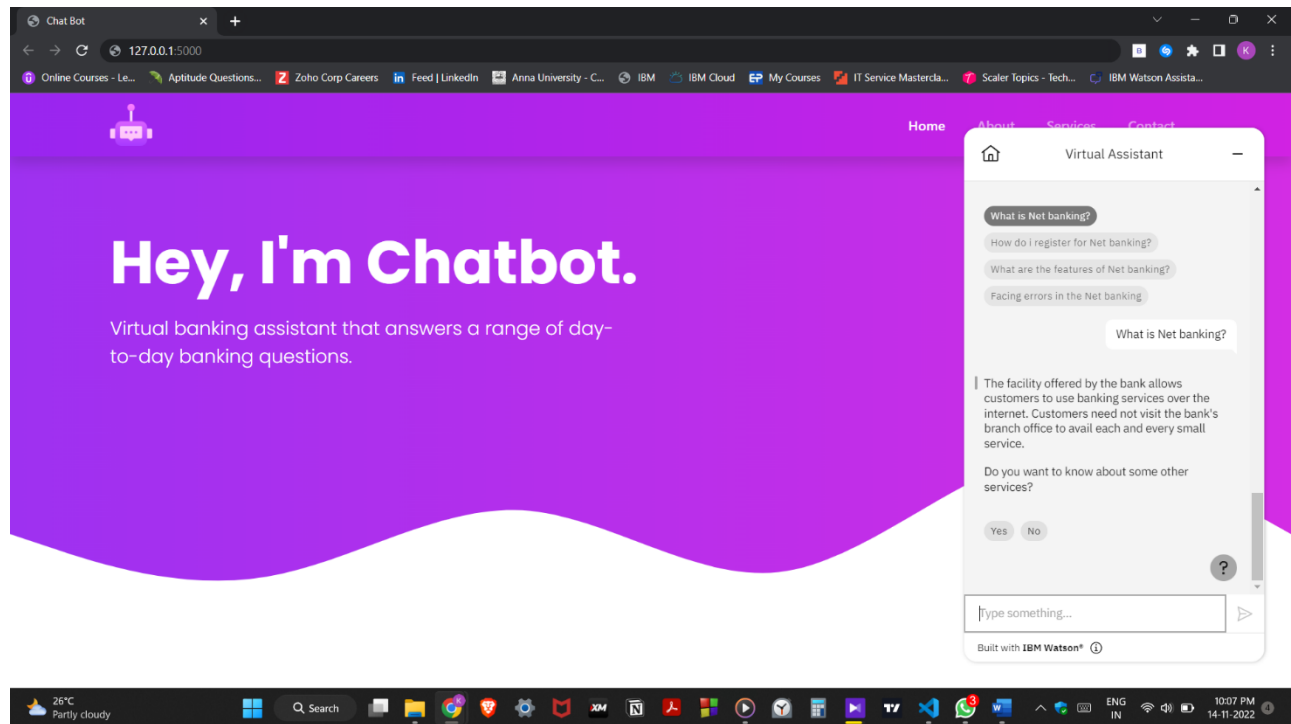

Then it will run on localhost:5000
